

Country Star Geetar Tuner

“Once you’re in tune, you’ll play as good as the greats!”

Country Star Geetar Tuner is a country/western themed guitar and guitar-like instrument(think electric guitar, bass guitar, banjo, etc). tuning tool. Its intended audience is anyone who plays guitar, but the language and theming will be geared towards being encouraging towards novice/beginner skill level players.

The user will be able to select the type of instrument they want to get in tune. Once that has been selected, the user will be brought to the tuning screen, which will provide visual feedback as to which string is being played by the user, and how in tune the note produced is. From the home screen, the user will also be able to access a settings page for the application.
